On February 27, 2007, the WITNESS was interviewed at his residence, by XXXXXX, Senior Investigator, of XXXXXX. The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001 Site 7 involving the Sauer Dump in Dundalk, Maryland (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and does not want an attorney. No other persons were present during this interview, and the interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for current residents.

The WITNESS was shown an aerial photograph of the Site. This aerial photograph was used as a reference throughout the interview and will be forwarded under separate cover.

The WITNESS was asked to explain his association with the Sauer Dump located off Lynhurst Road in Dundalk, Maryland.

The WITNESS stated that he has lived at his current residence at XXXX Lynhurst Road since 1975. The WITNESS explained that he was a good friend to Fritz Sauer and visited the Sauer Dump located off Lynhurst Road often.

The WITNESS explained that he had been disabled and not employed since 1975. The WITNESS stated that he frequently visited Fritz Sauer at the Sauer Dump office, which was located on the Site in a trailer. The WITNESS stated that he observed numerous dumping activities on the site and was told by Fritz Sauer where much of the waste had been picked up.

The WITNESS was asked to explain the type of business that Fritz Sauer operated at the Site located off Lynhurst Road. The WITNESS provided the following information.

The WITNESS stated that Fritz Sauer owned numerous waste containers (dumpsters). Fritz Sauer contracted with businesses to place waste containers at industrial locations and to pick up the waste when the containers were full. The WITNESS stated that these containers were returned to the Sauer Dump located off Lynhurst Road and the contents were dumped on the ground. The WITNESS explained that Fritz Sauer would separate all valuable materials such as iron, steel, copper and aluminum. The WITNESS stated that Fritz Sauer transported the

scrap metal to the Cambridge Scrap Metal Company (Cambridge). The WITNESS stated that XXXXX, Fritz Sauer's son, worked for Fritz Sauer much of the time from 1975 to 1990. The WITNESS stated that XXXX was also employed by Cambridge during this same time period. The WITNESS stated that XXXX worked at the Sauer Dump located off Lynhurst Road on weekends and nights.

When asked to identify the companies from which Fritz Sauer picked up waste, which was disposed of at the Sauer Dump located off Lynhurst Road, the WITNESS provided the following information.

- Colgate Company: The WITNESS stated that Colgate Company operated a manufacturing company in Baltimore and produced toothpaste and soap. The WITNESS stated that Fritz Sauer placed 10-cubic feet dumpsters at the plant and disposed of the waste at the dump located off of Lynhurst Road. The WITNESS stated that the waste from Colgate included wood planks that were approximately 2-feet by 6-feet in size. The WITNESS stated that the wood was used at the Colgate plant to cover the cement floor. The WITNESS stated that the wood was removed once the wood became saturated with floor waste. The WITNESS stated that this wood had a chemical odor and that if put in a fire to burn, the wood would produce a chemical smelling black smoke. The WITNESS stated that Fritz Sauer had told him that the wood planks were treated with an unknown substance to keep the wood dry for as long as possible.
- McCormick Spices: The WITNESS stated that McCormick Spices operated a factory in the City of Baltimore in the area of the Inner Harbor. The WITNESS stated that this factory was torn down in the 1980s (he was unable to recall the exact date) and that Fritz Sauer gutted and disposed of the inside of the factory. The WITNESS stated that this waste was transported to the Sauer Dump located off Lynhurst Road. The WITNESS stated that Fritz Sauer dumped this waste on the ground and separated any metals that were valuable. The WITNESS stated that the remainder of the waste was buried on the Site. The WITNESS was unable to recall the type of waste that was buried on the Site. The WITNESS stated that he did recall that when Fritz Sauer gutted the building, he took all of the electrical material inside the building including wires and switches.
- American Asphalt: The WITNESS stated that Fritz Sauer dumped tar buckets from American Asphalt on the Site located off Lynhurst Road. The WITNESS stated that this tar contained creosote.

When asked if he had ever observed transporters dumping waste at the Sauer Dump located off Lynhurst road, the WITNESS stated "yes" and provided the following information.

- BFI: The WITNESS stated that he had observed trucks with "BFI" stenciled on the cab of trucks drop off full 40-cubic yard containers at the Sauer Dump located off Lynhurst Road. The WITNESS stated that he observed roll off trucks from BFI drop off full 40-cubic yard containers at the Sauer Dump. The WITNESS stated that he

was told by Fritz Sauer that the waste that was dropped off by BFI at the Site was waste that could not be disposed anywhere else. The WITNESS stated that Fritz Sauer did not explain any further. When asked how often he observed BFI trucks enter the site, the WITNESS stated that the BFI trucks dropped off 40-cubic yard containers at the Site numerous times. The WITNESS stated that BFI was disposing of waste at the Site for many years in the 1980s. The WITNESS was unable to provide specific dates. When asked if he observed the BFI trucks on a daily basis, the WITNESS stated "no." The WITNESS stated that he observed BFI trucks at the site approximately one time each week. The WITNESS stated that the BFI trucks would pick up the containers from the Sauer Dump after Fritz Sauer emptied the containers on the dump.

The WITNESS stated that he observed numerous other trucks enter the site with waste and dispose of the waste; however, he could not recall any additional names.

When asked if he had observed drums on the Site located off Lynhurst Road, the WITNESS stated "yes" and provided the following information.

- Diamond Chemical Drums: The WITNESS stated that Fritz Sauer obtained 55-gallon steel drums from one of the containers that he had rented to a customer. The WITNESS stated that he did not know the name of the customer. The WITNESS described these drums as red, white and blue in color. The WITNESS stated that the drums contained a slush-type residue that Fritz Sauer would dump out on the Site. The drums would then be washed. The WITNESS stated that these drums were lined with a gold sheen that sealed the drums. The WITNESS stated that Fritz Sauer used these drums to hold scrap metals. When a drum was full, Fritz sold the contents to Cambridge Scrap Metal.
- Valvoline Drums: The WITNESS stated that he recalled observing drums with the name "Valvoline" stenciled on the sides. He described these drums as 55-gallon drums that were blue in color. The WITNESS stated that some of these drums contained hydraulic oil.

The WITNESS was asked if he ever observed waste from Baltimore Gas and Electric (BG&E). The WITNESS stated that he did not know if Fritz Sauer had a contract to pick up waste for BG&E; however, the WITNESS stated that he observed numerous electrical transformers on the dump. The WITNESS stated that all of the transformers had the initials BG&E on them. The WITNESS stated that Fritz and XXX Sauer cut the transformers open and removed the copper piping inside the transformers. The WITNESS stated that the copper was sold to Cambridge. The WITNESS was shown photographs of a transformer that had been dug up on the Sauer Dump. The WITNESS stated that the transformer in the photograph appeared to be the type that he observed on the Sauer Dump with the initials BG&E on them.

The WITNESS was asked if he had any knowledge of Boston Metals waste disposed at the Sauer Dump located off of Lynhurst Road. The WITNESS stated that he had been told by

Fritz Sauer that he picked up scrap metal at Boston Metals; however, the WITNESS stated that he did not recall actually observing the disposal of this waste.

When asked if Fritz Sauer dug holes to bury waste on the Sauer Dump located off Lynhurst Road, the WITNESS stated "occasionally." The WITNESS stated that because the area was mostly marsh, the normal procedure would be for Fritz Sauer to push waste with a bulldozer from a solid area to the marsh area and then cover the waste.

When asked where Fritz Sauer obtained the dirt to cover waste, the WITNESS stated that he always had piles of dirt on the Site and that some of the dirt came from Bethlehem Steel. The WITNESS stated that Fritz Sauer also purchased slag from Bethlehem Steel and used the slag as cover for the waste.

When asked the names of individuals that may have knowledge of waste disposal practices at the Sauer Dump located off of Lynhurst Road, the WITNESS provided the following information.

- XXXXX: The WITNESS stated that XXXXX lived at XXX Lynhurst Road in the 1980s and worked for Fritz Sauer at the Site.
- XXXX: The WITNESS stated that XXXX lived on Lynhurst Road in the 1970s and was friends with Fritz Sauer.
